

Exhibition registration

The Grenoble crystallographers community is pleased to invite you from **Tuesday, June 29th**, to **Friday, July 2nd, 2021** to the biennial congress of the French Crystallography Society (Association Française de Cristallographie, AFC).

AFC 2021 will offer 16 sessions built around the topical groups - biology, chemistry, physics - and the transverse axes - crystal growth, teaching and mediation, large facilities - of the AFC as well as the Earth sciences and all the interfaces between these disciplines. Three plenary conferences, four workshops, four poster sessions, meeting areas with exhibitors and an industrial plenary session are also planned. This AFC congress will also be the opportunity to attend the first "André Guinier" award ceremony, the thesis prizes and holding of the general assembly.

Come in large numbers to present your products and latest innovations during this highlight of the crystallography community, on a virtual exhibition site that maintains almost the entire program that was initially planned.

Finally, a **plenary session will be specially organized for the exhibitors, so that they can present their company and catalog to the participants.**

Looking forward to meeting you online,

Claire Colin & Matias Velazquez, Presidents of the Organizing Committee AFC 2021

If you are interested in the virtual exhibition please fill in the registration form available at the end of this document or contact the organization by email at Matias.Velazquez@simap.grenoble-inp.fr for more information about the virtual exhibition.
